

DATA COLLECTION

ITEMS				
NR	Description	Definition	FAIR	Allowed values, examples, other constraints
1	Persistent Identifier	An unique label that identifies the dataset	A	Example: DOI (Digital Object Identifier).
2	Creator(s)	Academic Medical Centre of the University of Amsterdam	F, A	Dr. Dionne Kringos
2,1	ORCID ID			https://orcid.org/0000-0003-2711-4713
2,2	affiliation			Amsterdam UMC, University of Amsterdam, department of Public Health, Amsterdam Public Health research institute, Amsterdam, Netherlands
3	License / Rights		A,R	not applicable
4	Title	Title of the dataset	F	<i>Fostering Responsible Conclusions and Messages in Health Services Research</i>
5	Subject	Keywords describing the subject of the dataset	F	<i>Questionable Research Practices, Policy oriented Disciplines, Health Services Research, Conclusions and Messages, Prevalence and Nature, Causes, Implementation Strategies, Scientific and Societal Publications</i>
6	CreationDate	The year when the data was collected	F, A	2017-2019
7	LastUpdated	The years most recent version of the dataset	F	2019
8	DatasetVersion	The version number of the dataset	I,R	1
9	Format	The format of the dataset	I,R	pdf
10	Size	The size of the dataset	R	3 MB
11	Language	Primary language of the resource	I	English and Dutch
12	Funder	Information about financial support (funding).	F	ZonMW projectnumber 445001003
