# RDM Plan 1 – Andrej Woerner

1. **Project name:** Overcoming Time Inconsistency with a Matched Bet – Theory and Evidence from Exercising
2. **Lead researcher:** Andrej Woerner
3. **Data steward:** Lisa Koks
4. **Research question(s):** Does a matched bet help people follow through with their plans to exercise?
5. **Data to be gathered (including location):** Gym attendance data, subscription data, survey data; location: Amsterdam
6. **Method of data collection (in case of personal data indicate the basis (*grondslag*)):** Informed consent at the beginning of the survey.
7. **Individuals involved in data gathering, data manipulation/editing and with access to the data:** Andrej Woerner
8. **Data Protection Impact Assessment** No high risk to the rights and freedoms of natural person.
9. **Data editing/manipulation steps (e.g. SPSS Syntax files, R scripts).** Stata script.
10. **Where and how will the data be stored (including temporary storage for research use) and security measures applied:** University laptop with password protection
11. **Approval EBEC (Economics & Business Ethics Committee) obtained:** Approval yes
12. **Intellectual property, copyright and ownership of the data:** Andrej Woerner

The researcher Andrej Woerner hereby states that the data will be stored will be in line with the UvA guidelines and UvA EB protocol on RDM.
